

Milliman MedInsight Employer Group Insights

Increase customer satisfaction, retention and revenue growth

Managing rising healthcare costs while consistently delivering measurable value to employer groups and members is a growing challenge for today's organizations. As stakeholder questions become more complex, organizations need trusted, transparent insights they can confidently stand behind.

MedInsight Employer Group Insights® (EGI) empowers health plans to confidently identify the key drivers of cost, utilization, and risk. With guided, self-service analytics, teams can easily access, customize, and share data without relying on custom report development. The result is faster responses, stronger renewal conversations, and a more consistent, scalable approach to demonstrating plan value and strengthening employer relationships.

Single Source of Truth

Transform disparate data into actionable outputs that connect health plans, employer groups, and brokers around shared.

Integrated Expert Analytics

Leverage Milliman's proprietary analytics to uncover new perspectives in your data and take targeted action to maximize value.

Client Trend Monitoring

Track key plan performance indicators to proactively surface emerging trends and clearly identify their underlying drivers for client discussions.

Optimized Care & Efficiencies

Accelerate total cost of care optimization and improve treatment efficiency by identifying financial and clinical variances and taking targeted action.

Quantified Value

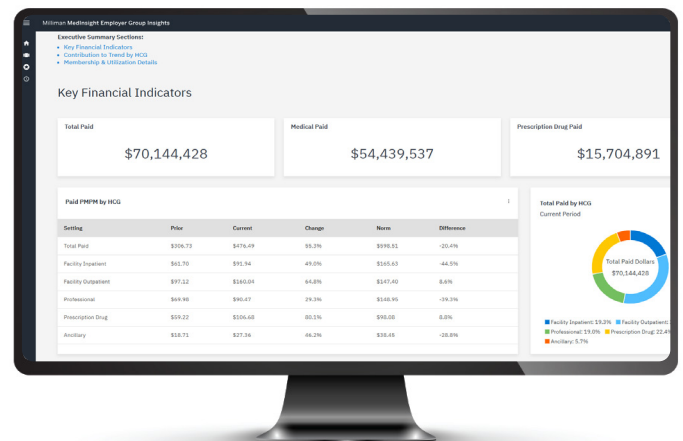

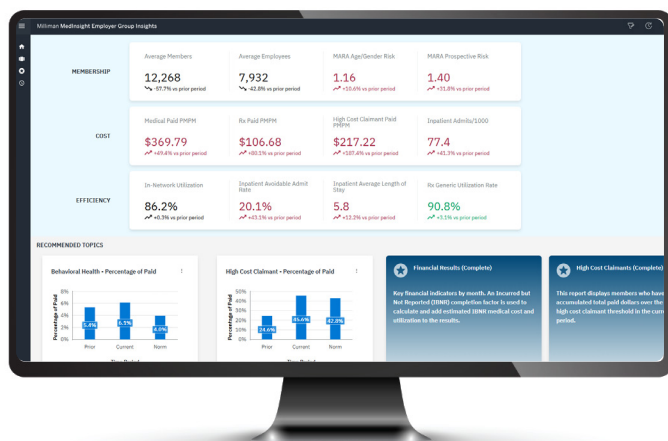

Model and optimize plan benefit designs while clearly demonstrating their financial impact to clients' bottom lines.

Improved Workflow

Save valuable time and resources by delivering rapid, actionable outputs that streamline responses to client requests with minimal training required.

MedInsight EGI Dashboard

Improve Customer Satisfaction and Retention

Improve client satisfaction and retention with intuitive, guided analytics that empower users at every level to securely access, customize, and generate reports. Deliver print-ready insights automatically or on demand to strengthen renewal conversations and drive more effective client strategies.

Optimize Efficiencies and Outcomes

Optimize efficiency and outcomes with intuitive, large-scale reporting that delivers granular insights through a streamlined workflow. Backed by Milliman's deep healthcare expertise, EGI provides end-to-end analytics that build confidence in decisions for you and your employer customers.

Increase Plan Value and Profitability

Increase plan value and profitability by translating data into compelling insights that uncover opportunities to improve financial and clinical outcomes. Empower your team with reliable self-service analytics to confidently demonstrate and elevate the true value of your health plan.

Use Cases: How EGI Can Help

Employer, Group, Sub-Group Reporting

Expand support for detailed employer, group, and sub-group analysis to improve reporting precision

High-Cost Claimant Tracking

Monitor high-cost individuals driving a disproportionate share of overall costs and utilization

Future Risk Predictions

Identify high-utilization patterns and cost drivers from historical performance and take targeted action to address them

Pharmacy Management

Gain quick access to drug pricing content and analysis tools (e.g., brand/generic analyses)

Group Benchmarking

Assess performance against peer groups to identify opportunities and drive targeted improvements in program and benefit design

Value Story

Enable teams to differentiate reporting for employer groups and brokers with tailored, client-ready outputs

Broker/Employer Access

Enable secure, on-demand reporting to rapidly generate outputs and efficiently respond to client requests

Book of Business

Analyze your book of business at the same level of detail as any individual account to uncover deeper, actionable opportunities
