

Milliman MedInsight

Healthcare Analytics and Insights

Confidence in every decision, backed by data you can trust

In today's ever-evolving healthcare landscape, delivering affordable, high-quality care remains a top priority. Healthcare organizations looking to devise a solid plan for long-term success need a comprehensive understanding of their business and access to reliable insights across the entire enterprise. By implementing the right analytics solutions, your organization can effectively monitor cost and utilization trends, gain valuable insights into patient populations, optimize network performance, and drive the transformation towards value-based care.

At Milliman MedInsight®, we recognize that reliable data is the foundation for informed decision-making and meaningful change. That's why we combine robust data, advanced technology, and industry expertise to empower healthcare organizations with actionable insights they can leverage and trust. With our solutions, you can improve operational efficiency, enhance patient outcomes, and make informed decisions that drive positive transformation.

300+ healthcare organizations

10 of the top-rated U.S. Health Systems

Helping over 160 million Americans get access to affordable, quality healthcare

75+ year tradition in Data Confidence

Make a lasting impact on healthcare with trusted data and powerful insights

Experience the true potential of your organization's data with our healthcare-ready platform. Our innovative solutions are tailor-made to meet the specific needs of hospitals, IDNs, healthcare delivery systems, ACOs, and health plans. By leveraging our robust platform and applications, process, people, you can drive informed decision-making, optimize resource allocation, and elevate patient outcomes.

Dynamic cloud technology

Accelerate insights on cutting-edge, cloud-native technology supported by Databricks and Microsoft Azure to efficiently manage the journey from data collection to analysis to actionable insights.

Healthcare-focused platforms

Enhance clinical and financial outcomes with flexible platforms that focus on value-based care (VBC), payer business challenges, risk adjustment and enriched data for complex analyses.

Trusted enterprise data

Access complete, reliable data including medical, pharmacy, dental and vision claims; eligibility; health risk assessments; lab results; biometric screenings; provider data; encounter data and more.

Gold-standard benchmarking

Incorporate Milliman-engineered benchmarks to measure, evaluate, and optimize performance for aligning strategies, driving performance improvement initiatives, and delivering high-quality care.

Integrated AI capabilities

Apply artificial intelligence (AI) and machine learning (ML) to your data for better insights and perform complex data modeling and analyses in significantly less time.

Industry expertise and experience

Collaborate with industry experts who possess deep industry expertise and can assist your organization in navigating the ever-evolving healthcare landscape and ensure success in this dynamic industry.

Who we serve

Our platform and analytics serve a wide range of users, including executive teams, data scientists, data analysts, information consumers, and population health/care managers at leading healthcare organizations.

How MedInsight helps
